functions of assimilation, are probably sadly out of gear and need reconstruction.

Cut out the faddsh foods and funny sawdust flers. Cut out everything but the meals you are eating and eat with every one of those a single Sargol tablet. In two weeks note the difference. Let the scales be the judge. Five to eight good solld pounds of healthy; susy-there fat may be the net result. Sargol aims to charge weak, stagnant blood with millions of fresh new red blood orguscles—to give the blood the earrying power to deliver every once of fat-making material in your food to every part of your body. Sargol, too, mixes with your food, to prepare it for the blood in an easily assimilated form. Thin people tell low they have gained all the way from 10 to 25 pounds a month while taking Sargol and say that the new fiesh struys put. Sargol tablets are a careful combination of fix of the best assimilative elements known to chemistry. They come 40 tablets to a package, are pleasant, harmless and inexpensive, and H M. WORLD'S SERIES TALK Majors' Close Races Cause Worry to Magnates Already.

Owing to the closeness of the two major league pennant races, members of the national commission are handicapped in efforts to draw up a schedule end make other arrangements for th holding of the world's series, less than a month away. Although the date for the opening game has been unofficially set for Saturday, Oct. 7, the fact that the commission is unable to determine the commission is unable to determine which clubs will participate is hamperine the completion of many details.

This problem it was announced at New York Tuesday, will be fully discussed at Cincinnati Friday when the commission and the club owners gather for the annual drafting of minor league players. The situation may result, it was indicated, in the extraordinary feature of preparing a number of world's series schedules covering National and American league clubs which have a chance to win the right to compete in the baseball classic, only three weeks' leeway will exist at the league who making good in the American and National leagues.

"The poor Federal players won't last long when they get into real fast company," said the skeptic when the players of the defunct league were signed up by the two old major organizations before the opening of the present season. But their skepticism has not been borne out by the results. Here is what some of the former Federals are doing now:

Cullop, former pitcher with the Kansas City Feds, now pitching 300 with the New York Yankees.

The fight for the batting leadership of the American league is almost as thrilling as the bunting race itself. Slowly but surely the demon Tiger is creeping up on Speaker, and just a jump or so behind him is Josephus Jackson. The leading indian continues to lace the horsehide, but he isn't hitting with the frequency of Cobb.

Cobb never in all his brilliant career has played with such carnestness, such drew down a guarantee of \$4,000. STAGE ALL SET FOR FOOTBALL. Great American College Sport is Almtst Upon Us.

The weather isn't exactly suitable to the great American college sport, but the 191 American college sport, but the 1916 season is upon us. It peoped over the horizon the other day with the circulation of the annual guide and immediately did the fans begin to peruso the contents thereof.

From now until the opening game acres of dope will be read and heard concerning the chances of various major varsity elevens for sectional championships. The shrill voice of the quarterback will be audible in less than a fortnight in some football

training by strenuous work at summer resorts. Some of the less wealthy are incarcerated in offices earning money, but they've all got their minds focussed on that day when the coach first orbs them in full regalia.

With the rule book available, about the first thing the player will do is to become acquainted with the changes over the laws of fast season. Neither the player por the fan will have to waste the midnight oil understanding the rules this year,

Few and unimportant alterations were made by the committee, and hardly one affects the onlooker. The hanges were made more to clear up oubtful points than to affect the styl-

The most important of the amendmis concerns the same, and the man and sinitions of that play the man are ging the ball, if ferred back across its own goal line, was guilty of making a safety. However, another rule makes it incumbent upon the referee to blow his whistle at the forward point reached by the player; that is, when the player has ceased to advance the play is storped.
